WORK EXPERIENCE

Infosys Limited

Senior System Engineer   Dec 2021 - Present

- Developed endpoints for uploading Excel sheets, enabling users to view and update data in dashboard
- Used Jenkins to build microservices and worked on version control for JAR files
- Maintained over 85% test coverage using JUnit and Mockito for unit and integration testing
- Resolved bugs and issues identified by SonarQube, ensuring code quality and reliability
- Created comprehensive API documentation using Swagger for seamless integration and understanding
- Scheduled Spring Batch jobs for periodic database updates

SKILLS

Language: Java, C++, Python
Frameworks: Spring, Spring Boot, Hibernate, JPA, JDBC, Mockito, Junit, Spring Security
Tools: Git, Jenkins, SonarQube, Swagger, XL Deploy, Jira, AWS
Databases: PostgreSQL, MySQL

EDUCATION

Jalpaiguri Government Engineering College, Jalpaiguri
Bachelor of Technology - 8.4 GPA   Aug 2017 - July 2021

PROJECTS

Web Chat Application | LINK

- Developed REST APIs for user authentication, posting texts, and viewing a shared chat space with real-time updates
- Integrated Thymeleaf with HTML, CSS, and JavaScript for a dynamic and user-friendly interface

Blog Application | LINK

- Implemented role-based authentication using JWT, with REST APIs for creating, viewing blogs, and commenting
- Leveraged Spring Data JPA for database interaction and ModelMapper for efficient object mapping

CERTIFICATIONS

HackerRank Certified Software Engineer   Issued On Oct 2024
Coding Ninjas Certified Spring Boot Developer   Issued On Mar 2024
Udemy Certified Full Stack Developer   Issued On May 2023

ACHIEVEMENTS

Achieved **AIR-143** at Codekaze 2024 organized by Naukri.com and Coding Ninjas
500+ Problems solved in LeetCode and **5 Star Rating** at HackerRank
